

mohare Danda Trek

Trip Overview

Mohare Danda Trek is an absolutely beautiful place for the panoramic view of the Annapurna range. The newly opened trail in the Annapurna trail is the less crowded route yet completely mesmerizing place to view the sky-piercing the White Mountains. Thus, the Mohare danda trek is a perfect substitute for the Ghorepani Poonhill trek. MohareDanda trek may not be as popular as other trekking destinations in Nepal but the location and the view it offers are magnificent. Mohare Danda lies at the foothills of the Annapurna range and is also located along the world's deepest gorge i.e. Kali Gandaki Gorge at an elevation of 3300m. This amazing location is the main reason the place provides stunning views of the Annapurna and Dhaulagiri range.

The trek starts with a guided tour of UNESCO-listed World Heritage Sites of Kathmandu Valley. But the actual trek starts from Pokhara taking the route up to Baskharka and on to Nangi and ending the journey to Mohare Danda. The most fascinating thing about the trek to Mohare Danda is its magnificent view of Sunrise and Sunset. Starting the day with the first ray of light of the day to ending the day with a gorgeous view of Sunset is an agenda to follow when you are doing the Mohare danda trek. Trek to Mohare Danda is different from other trekking routes in Nepal. The trek is easy and effective too. Not only the scenic view of the Himalayas of Nepal is part of this journey but the ultimate encounter with the local Magar communities and experiencing their infamous Hospitality is another thing to look forward to in this trek.

Trekking in Nepal can be exhausted but at the same time very much worth too with all the natural grandeur greeting you. Come along with Highland Eco-Trek and make the most of your time in Nepal by doing Mohare Danda Trek and capturing unforgettable memories with you.
